SKILLS

- Customer Segmentation
- Data Analysis
- Data Interpretation
- Data Presentation
- Data Synthesis
- Data Visualization
- Presentation Preparation
- Stakeholder Awareness
- Assumption Development
- Communication
- Data Modeling
- Data Science
- Infrastructure Planning
- Machine Learning

LANGUAGES

- English (Fluent)
- Swahili (Fluent)

PROFILE

Data Analyst with experience in data cleaning, analysis, and reporting using Python, SQL, Power BI, and Microsoft Excel. Skilled in transforming raw data into structured insights, identifying trends, and building data-driven solutions that support business decision-making. Experienced in working with large datasets, data preparation, exploratory analysis, and predictive modeling. Strong analytical thinker with attention to detail and a practical approach to solving business problems through data.

WORK EXPERIENCE

Fuzu 2025 - PRESENT
Operations Associate

- Support daily operations and keep tasks moving smoothly between teams
- Assist users and partners with clear communication and timely follow up
- Capture feedback and help resolve issues that come through operations channels
- Document processes and keep workflows organized for faster user support

Actuate Bio-medicine 2023 - 2025
Research Director

- Led research activities and coordinated programs involving multiple teams
- Translated complex information into simple actions for users and partners
- Maintained consistent documentation and follow up across all projects
- Kept communication lines open to support smooth project execution
- Planned and managed annual summits.
- Organized and set up meetings with potential investors.

UBRICA 2019- 2023
Head of Ambassador Program

- Recruited and trained more than fifty ambassadors
- Organized events and kept communication clear for the entire program
- Helped grow engagement and retention through steady guidance

EDUCATION

BSC. General Science 2015 - 2019
Egerton University

Independent Study 2025 - 2026

- Successfully completed a self-directed curriculum focused on end-to-end data analysis.
- Developed a robust technical foundation in Python, Excel, SQL, and Power BI by completing industry-standard job simulations.
- Actively maintain a GitHub portfolio to demonstrate version control and the practical application of data cleaning, exploratory analysis, and visualization techniques.
